

Disinfection

SNiPER® is tested effective as a germicide, bactericide, virucide, and The Ideal Biocide. Its proprietary formulation makes it a unique disinfection system targeting the most harmful virus and bacteria while remaining mild and eco-friendly. **SNiPER®** has the highest efficacy and is easy to use. It does not produce harmful byproducts, residues or VOC's. It will eliminate malodors from smoke, urine, vomit, bodily fluids, sulfur, ammonia and much more. It is a broad spectrum "Hospital" disinfectant cleaner able to fulfill many responsibilities in one product.

SNiPER® is named the Ideal Biocide by Herman Sabath, Ph.D. MPH CMC/CMI, Global Leader in Microbial Infections and Indoor Environments.

Clean - Disinfect - Deodorize

- All-purpose, multi-surface cleaner
- Broad spectrum "Hospital" disinfectant and biocide
- Superior odor eliminator

The Future of Clean Technology

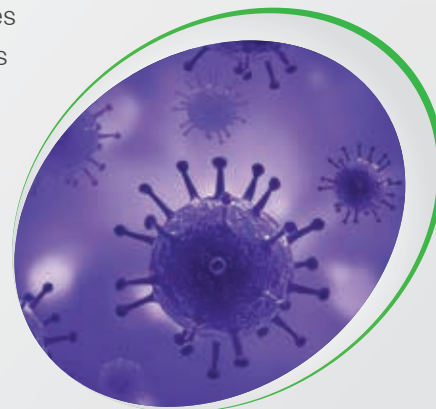

It is ideal to use around children, the elderly and those with allergies, asthma or immune deficiencies. **SNiPER®** does not emit or produce volatile organic compounds. It does not poison to disinfect; it uses a mechanical action to take apart its target on a molecular level. Micro-organisms cannot become immune to **SNiPER®**. It is non-corrosive, non-flammable, non-chlorinating, phosphate free, hypo-allergenic and a true biodegradable product. **SNiPER®** is ideal for multiple applications. Use **SNiPER®** on contaminated areas or any surface that may harbor microscopic enemies. **SNiPER®** is non-corrosive so it does not need to be wiped off of a surface to prevent damage. It should remain on surfaces for maximum protection.

Kill Harmful bacteria and viruses

Clean, Disinfect and Deodorize:

- Hospitals
- Nursing Homes
- Surgery Centers
- Coroner & Medical Examiner facilities

- Laboratories
- Schools & Universities
- Government Facilities
- Restrooms
- Hotels

- Gyms
- Zoos
- Jails & Prisons
- Police Stations
- Fire Houses
- Laundry Facilities
- Day cares
- Animal Control
- Veterinary
- Pet Grooming / Boarding
- Public Transportation (buses, Air lines)
- Odor elimination
- Commercial Kitchens
- any Public Area
- and much more

Green Cleaning

Thanks to a breakthrough in environmental science technology, we are able to offer a green cleaner that has the power of an industrial strength disinfectant without the harmful effects. **SNiPER**[®] is a revolutionary environmental restoration product, that consists of a unique application of nano-technology designed to address the most challenging indoor environmental issues. **SNiPER**[®] is an intelligent disinfecting and cleaning system targeting pathogenic organisms not you and the environment.

An Environmental Science Breakthrough

- Level IV EPA Toxicity Rating (Lowest Level Allowed)
- No negative impact on the environment
- Biodegradable, hypo-allergenic
- Does not produce volatile organic compounds
- Non chlorinating
- Phosphate-free
- Has no noxious odor
- Leaves behind no harmful residue
- Non-corrosive & non-flammable
- Highest efficacy
- Removes harmful odors & VOCs

Disinfect & Deodorize

Change the way you think about cleaning

SNiPER[®] is great to use to clean toys, nurseries, pet areas, kitchens, bathrooms and will eliminate associated odors. Keep surfaces from harboring bacteria and viruses by disinfecting with **SNiPER**[®]. It is a smart cleaning and disinfecting system that far exceeds other green cleaning products. **SNiPER**[®]'s efficacy makes it the ideal biocide. Its proprietary formulation is intelligently designed to ensure that toxins will not become immune to **SNiPER**[®] and **SNiPER**[®] will deliver exceptional results every time.

Replace your old cleaners

SNiPER[®] is an exceptional solution to the challenges of keeping a clean and healthy environment in the modern home. Increasingly, there is a need for a disinfectant cleaner which can address a broad range of surfaces and materials without the use of harsh chemicals which can damage or shorten the life of certain surfaces. These harsh chemicals can also contribute to health problems, such as asthma, shortness of breath, headaches, nausea and allergic reactions.

SNiPER[®] is unique in its ability to clean, disinfect, and deodorize with a mild formula that will not damage surfaces:

- Counter tops - food preparation surfaces
- Appliances - sinks and fixtures
- Bathroom tile - toilets
- Tubs - showers
- Furniture - refrigerators
- Saunas and hot tubs - and much more

It will not harm wood, granite or stone, porcelain, stainless steel or acrylic. Neither will it stain or discolor most fabrics.

****Note**** Testing an inconspicuous area for color fastness is always recommended (especially if other products have been used prior to **SNiPER**[®])
